About Me

Passionate Java Full Stack Developer with a strong foundation in **frontend** and **backend** technologies. Eager to contribute to a collaborative team, solve real-world problems, and pursue continuous learning and professional growth.

Skills

Programming Languages: Java, JavaScript, HTML, CSS, SQL

Frameworks & Tools: Spring Boot, Bootstrap, Git, MySQL

Web Technologies: REST APIs, Java Servlets, JSP

Development Tools: Spring Tool Suite (STS), Eclipse, Postman

Other Skills: Problem Solving, Time Management, Active Listening, Teamwork, Communication

WORK EXPERIENCE

Internship

Noble Software Solutions, Tirupur| Frontend Development Trainee

- 15 days Studied and gained understanding of frontend technologies including HTML, CSS, and JavaScript.
 - Learned about web development practices and user interface design.
 - Developed foundational knowledge that complements my technical skills.
-

EDUCATION

- **B.Sc. Computer Science**

Dr. N.G.P Arts and Science College |2021-2024 | 80%

CERTIFICATION

- Completed **Java Full Stack** Course at Refinement Software Solutions in Coimbatore
-

PROJECTS

Expense Tracker Application

Technologies Used: Spring Boot, Thymeleaf, MySQL, Spring Security

- Built a web-based application for tracking expenses categorized into Food, Travel, Entertainment, and Others.
- Implemented secure user login and registration using **Spring Security**.

- Created dynamic dashboards for users to view, add, and manage their expenses.
- Utilized **Thymeleaf** for front-end rendering and integrated **MySQL** for persistent data storage.

Drag-and-Drop To-Do List Application

Technologies Used: HTML,CSS,JAVASCRIPT

- Created a dynamic to-do list application with drag-and-drop functionality using **HTML, CSS, and JavaScript**.
- Implemented interactive UI features for task management.

Absent Message Notification System

Technologies Used: HTML,CSS,JAVASCRIPT

- Developed a system to notify students of absences, streamlining communication between faculty and parents.

Automatic Leave Form Generation System

Technologies Used: PHP&MYSQL

- Developed a website to automate leave form generation and notifications for absent students. The system allows teachers to Mark attendance and send automatic email notifications to absent students.
- Enable students to log in, generate pre-filled leave forms, and retrieve them as PDFs, improving administrative efficiency

CONFERENCES & WORKSHOPS ATTENDED

- Attended National Conference on "Advanced Computing Sciences"
- Attended National Conference on "Sustainable Environment for Crop Development using IoT"

ACHIEVEMENTS

- 3rd Prize: Presentation on "E-waste Management" (Inter-department level)
- 2nd Prize: Presentation on "Save Our Noyyal River - Action Plan"

LANGUAGES

- Tamil
 - English
 - Hindi
